

Claude Max – AI Literacy & Student Innovation Initiative

Introduction

I am an entrepreneur, startup mentor, and innovation ecosystem contributor working at the intersection of education, entrepreneurship, innovation, and emerging technologies.

As the Founder of GreenSizz, incubated at Atal Incubation Centre (AIC), NITI Aayog and an active contributor to entrepreneurship and innovation programmes, I work closely with student communities, educational institutions, startup ecosystems, and innovation initiatives to help learners become future-ready developers and entrepreneurs.

My focus is on:

- **AI literacy** — AI-assisted learning awareness
- **Startup ecosystem enablement** — ecosystem support and activation
- **Entrepreneurship education** — learning pathways for founders
- **Innovation mentoring** — guidance for problem-solving and ideation
- **Developer skill-building** — practical development practices
- **Community-driven learning** — peer learning and programs

I actively conduct workshops, awareness sessions, mentoring activities, and educational initiatives aimed at helping students understand modern technology-driven development practices.

My work increasingly focuses on helping students and young innovators understand practical and responsible usage of modern AI technologies in learning, innovation, and problem-solving environments.

Community & Ecosystem Impact

- Enabled **32,000+** young women to explore entrepreneurship initiatives
- Supported **5,000+** startup teams through innovation and ecosystem programmes
- Contributed to **Rs. 10+ Crore** funding enablement across startup support platforms

Contributed to entrepreneurship and innovation education initiatives

Ecosystem Contribution

Student & Innovation Community Enablement

- Conducted and contributed to workshops, mentoring sessions, and innovation activities for students.
- Supported awareness initiatives around entrepreneurship, innovation, and technology adoption.
- Guided student innovators and startup teams on problem-solving, business understanding, and innovation thinking.
- Participated in startup competitions, evaluation activities, and ecosystem-driven initiatives.

Government & Educational Ecosystem Participation

Associated with entrepreneurship and innovation ecosystem activities under educational initiatives including NEEEV and SCERT ecosystem engagements.

Key involvements include:

- Participation in entrepreneurship and innovation workshops
- Contribution to student innovation ecosystem initiatives
- Engagement as mentor/resource person/jury participant in innovation-driven programs
- Student-focused awareness and capability-building sessions

Impact Areas

- Entrepreneurship awareness
 - Innovation exposure
 - Technology orientation
 - Student mentoring
 - Startup ecosystem development
 - Skill development initiatives
-

Responsible AI & Educational Use

I strongly believe students should not only learn how to use AI tools productively, but also responsibly and ethically. Through mentoring sessions and awareness initiatives, I encourage thoughtful AI adoption focused on learning enhancement, creativity, research support, and innovation-driven problem solving.

Why I Am Applying for Claude Max

I believe Claude can play a meaningful role in helping students develop structured thinking, responsible AI usage habits, creativity, research capability, and problem-solving confidence in educational environments.

Access to Claude Max would help me create better educational resources, improve workshop preparation, simplify complex concepts for students, and demonstrate practical AI-assisted learning workflows during mentoring and ecosystem engagements.

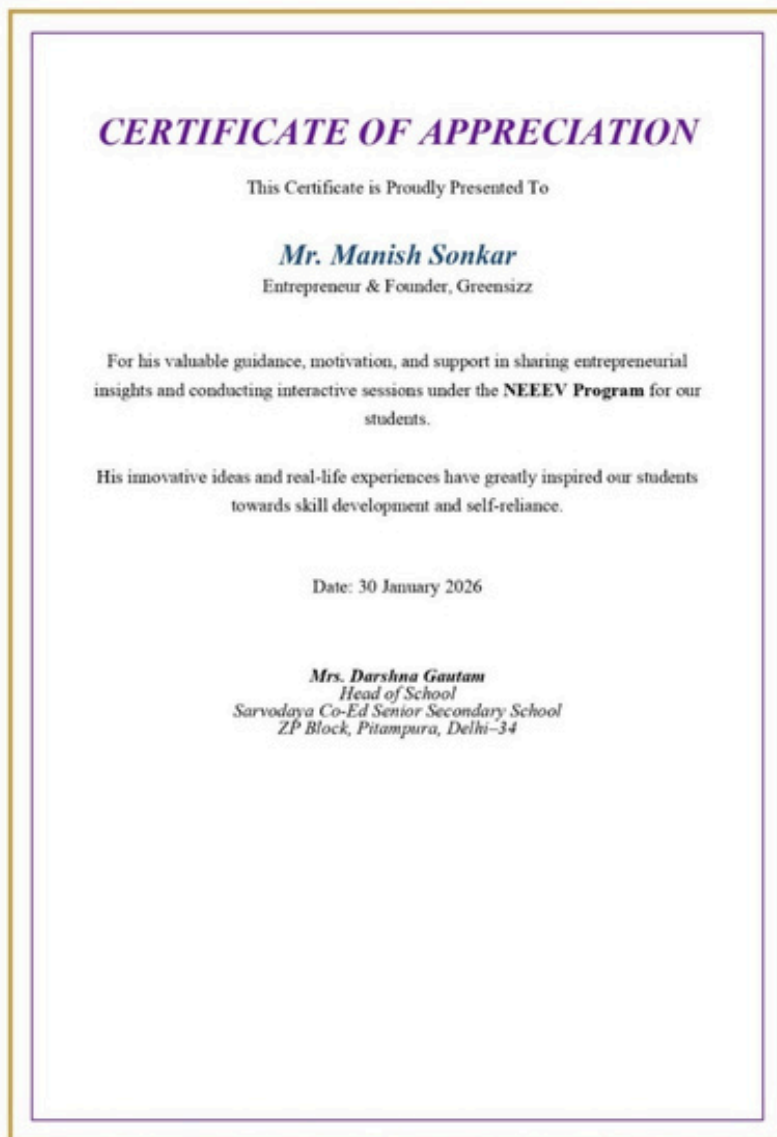

I particularly value Claude's focus on thoughtful reasoning, responsible AI interaction, and educationally meaningful assistance.

Supporting Evidence

Certificate of Appreciation

The following certificates highlight recognition received for mentoring, guidance, and contributions to student development and entrepreneurship awareness initiatives.

Received appreciation for guidance, mentoring, and contribution towards student development and entrepreneurship awareness activities.

Respected Sir,

Warm greetings from Sarvodaya Co-Ed Senior Secondary School, Pitampura.

On behalf of our school, I sincerely thank you for your valuable support, guidance, and contribution towards the successful implementation of various activities and sessions under the NEEEV Program.

We are pleased to share your **Certificate of Appreciation** as a token of our gratitude for your efforts and dedication in guiding and inspiring our students.

Your cooperation and commitment have played an important role in enhancing the learning experience and career awareness of our students.

We once again express our heartfelt thanks and look forward to your continued support in the future.

With warm regards,

VICE PRINCIPAL

Dear Sir/Ma'am

Greetings from the State Council of Educational Research and Training (SCERT), Delhi

We are pleased to invite you to participate in a One-Day Workshop on the Development of Assessment Criteria for Selecting Teams by School Innovation Councils (SIC) under the NEEEV – New Era of Entrepreneurial Ecosystem & Vision Scheme.

This workshop aims to collaboratively design a comprehensive and effective framework for assessing and selecting student teams as a part of the 'Startup Stormers' competition under the NEEEV Scheme. Your valuable expertise and contribution will play a crucial role in shaping the evaluation process and ensuring its alignment with the objectives of NEEEV.

Workshop Details:

Date: 16-10-2025

Time: 10:00 AM to 05:00 PM

Venue: Room No. 208, Training Wing SCERT.

Duration: One Day

We would appreciate your participation, and we look forward to your valuable input in developing a robust assessment framework that promotes innovation and entrepreneurial thinking among students.

Warm regards,

Dr. Sapna Yadav
Chairperson
NEEEV

Vision & Future Roadmap

I especially aim to make AI literacy and innovation exposure more accessible to students from emerging and underrepresented learning communities.

My objective is to help make responsible AI learning more accessible, practical, and meaningful for students and innovation communities through mentorship and educational engagement.

I believe responsible AI education can empower students to become more thoughtful, innovative, and future-ready contributors to society.
